SCHOOL REPORT.

The School Board present the following report for the year ending March 1, 1891 :

Early in the school year the residents of the Peaslee District requested that a school might be opened in the school house. As there are nearly as many children of school age within their limits as in another part of the town, where a school was maintained, it seemed reasonable that their request should be complied with. Therefore during the Spring and Fall terms we had five schools in town instead of four as in previous years.

In some of our schools we have been gratified to note at each visit, the existence of a harmonious feeling between teacher and pupils and a constant advancement in the studies pursued. This state of feeling, with orderly conduct, make a successful school.

Of the less successful ones we are aware that the communities in which they were located, need no further enlightenment as to their short-comings.

We feel that those parents who write excuses for their children to be dismissed nearly every day, make a great mistake, and injure not only their own, but every child in school.

For years past the School Board have expressed the conviction, that some of our schools were too large for a teacher to do justice to, and that inadequate provision is made for the education of our youth, therefore we would respectfully call attention to articles 7th and 8th in the warrant of the School District in the town of Kingston :

Article 7. "To see if said district in the town of Kingston will by a vote of two-thirds of the legal voters at said meeting establish a High school."

Article 8. "To see if said district will vote to raise extra money to support said school, if established, and if so how much."

For a further report of the schools please refer to statistical table.
